Sample MEDALLION GUSHERS

Sample ID SD230307-008 (67357)		Matrix Concentrate (Inhalable Cannabi	s Good)	
Distributor License 604034860	Address	1 Vanderbilt, Irvine CA, 92618		Name Savage Enterprises
Sampled -	Received Mar 06, 2023		Reported Mar 17, 2023	
Annalysis and CANIX				

Laboratory note: The estimated concentration of the unknown peak in the sample is 3.04% | Currently PharmLabs laboratory can not confirm an unidentified peak in your chromatogram due to interference (only with highly concentrated D8 products) from which we believe to be either (+)d8-THC or 49-THC at this time there are no reference standards available for (+)d8-THC. (+)d8-THC is a different compound from the main (-)d8-THC cannabinoid and, therefore, these two compounds may have different efficacies. Using the most advanced instruments and techniques available, the separation of (+)d8-THC and d9-THC is problematic for the scientific community as a whole. PharmLabs believes the unidentified peak to be a combination of (+)d8-THC with the majority, if not all, of the concentration being (+)d8-THC. Total (+/-) D8 Concentration is estimated to be: 69.39%

CANX - Cannabinoids Analysis

Analyzed Mar 09, 2023 | Instrument HLPC Measurement Uncertainty at 95% confidence**7.806**%

 $\Delta 9 ext{-Tetrahydrocannabiphorol}$ ($\Delta 9 ext{-THCP}$)
